AL3 Aluminum Brazing and Welding Rods - The Home Depot

This aluminum brazing rod has flux on it and works best on extruded type aluminum, like the alloy 6061. Rivets, channel and extruded sheet products are typically a 6061 alloy. Note: Purchase a new stainless steel brush for pre-cleaning the area, then save the brush in plastic zip lock bag for future use. This prevents cross-contamination of metals and helps clean the aluminum prior to brazing.

Phosphorus Brazing Alloys Self Fluxing - Theseco

Brazing with Silver-Copper-Phosphorus and Copper-Phosphorus alloys is widely used for the joining of Copper to Copper where the absence of a flux is a major benefit. The self-fluxing action of the Phosphorus ensures that flux entrapment problems are largely avoided and that high standards of joint soundness can be maintained.
