[International Law - Definition, Examples, Cases, Processes](#)

International law is a collection of laws that are accepted as governing the relations between states. There are three types of international law: public international law, private international law, and supranational law.

Cases | International Court of Justice

The Court has a twofold role: to settle, in accordance with international law, legal disputes submitted to it by States (contentious cases) and to give advisory opinions (advisory procedures) on legal questions referred to it by duly authorized United Nations organs and specialized agencies.

List of International Court of Justice cases - Wikipedia

This is a list of contentious cases and advisory opinions brought to the International Court of Justice since its creation in 1946. 165 cases have been entered onto the General List for consideration before the court.
